HAVE FORTY THOUSAND TREES TO SPARE.

A Large Variety of Beautiful Trees, Palms, etc., to Be Had for the Trouble of Going After Them.

Through the courtesy of Hon. Joseph Marsden, Commissioner of Agriculture, a representative of the STAR paid a visit to the Government nursery on King street vesterday afternoon and gathered much information in relation to the nursery, the methods pursued in raising trees and plants, and the quantity of trees now ready for distribution late Alex. Cartwright's premises on which cannot fail to be of interest to Beretania street, which was imported head was surmounted by a crushed the general public. Since the new gardener, H. J. Rhodes, took charge some very radical changes have taken place, more attention being paid to the subtropical part of East Australia. propagation of trees and plants and Grows to a height of 150 feet; of rather less to the care and ornamentation of the grounds, which are only three acres in extent and entirely inadequate The wood is elastic and durable, valued to the purpose.

The reporter was first shown the process of making baskets, these being more preferable. These are made from the leaves of the Lauhala, brought from Hawaii for the purpose. They are bound round the thick end of a champagne bottle and formed into a where there is sufficient moisture, and receptacle for small trees. In planting, it is quite possible that at no distant after leaving the nursery, the tree and date an export trade may be established his Samoan servant Talola, the novelist its receptacle are buried together, the in this delicious fruit; therefore none took a drive as soon as his baggage latter soon rotting away in the ground. they should be either planted by the By this process the loss by transplanting is absolutely nothing. All the seeds collected by Commissioner Mars den are planted in boxes, then into these leaf pots and in a few months are ready for distribution. Three Pod, a magnificent shade tree, affords months ago there were scarcely 5000 a tough timber; 125 plants. plants fit for distribution; to-day there tree. When in blossom this tree preare about 40,0000 and the number is still increasing.

Among the most important trees in the nursery is the camphor. This tree was imported from Japan and is doing well. While there are quite a number of them there will be none for distribuof them there will be none for distribu of extremely rapid growth, and attains tion for some time yet, as those now a height of 350 feet. The wood is in the nursery will be used for propagating purposes. The tree is a beautiful evergreen, and no insect will go near it. There are rows of thrifty young orange and lemon trees, which 1000 plants. will be grafted with the finest buds obtainable and set out in the Makiki forest; alligator pears for experimental grafting, any amount of different varieported trees with queer foreign names, the uses of which Mr. Marsden has at his fingers' ends.

In visiting the nursery one should not fail to look at Mr. Marsden's to bacco plantation. There are about kets. It is easily grown on a frame or their wives there were twenty-three. The Mariposa's passenger list was a 300 flourishing plants of the Sumatra on a fence; 200 plants. Government nursery should settle the the manufacture of cake tobacco; 200 take less than half a column of the matter. Adjoining the tobacco are a plants. number of sisal plants which are doing well and bears abundantly in this well. Among other plants and trees to country, and is less subject to blight be found here are the cassava or West Indian mandioc. This is a large tuber and is prepared for eating by simply grating and boiling. This tuber forms obtained from limes imported from the bulk of the food used by the lower classes in Brazil. There are a number of plants of Sea Island cotton, specimens of which, from this nursery, have been set out both at Pearl City and care and cultivation; 500 plants. Punahou college, where they are the pimento or common allspice. There nursery, but it is now in full bearing and every ripe seed is being saved and In the greenhouse are a late, pimento and other varieties of merce and is extensively cultivated in trees requiring more than ordinary care the West Indies; 50 plants. in starting. The nursery is kept free from blight by means of the application of the blight wash, made under the di rections of the Bureau, the efficacy of which has been proven. A large tamarind tree was shown the reporter which was literally covered with blight three months ago, but to-day there is not a

sprayings with the exterminator. There are now in the neighborhood of 40,000 trees ready for distribution to the general public, and the Commissioner wants to get rid of them in order to utilize the space they now occupy for raising more. Persons desiring trees or plants must precure an avenue of these palms presents an imorder from him during the week and posing spectacle; 500 plants. present it at the nursery on Saturday only, where it will be honored by H. J. Rhodes, the gardener. Applicants may have half a dozen or a dozen varieties at the same time, but not it should be. In order to produce more than two or three varieties of the good fruit the date palm requires to be same tree will be given to any one well fertilized. Attention in this direc

Following is a list of some of the ance of luscious fruit; 250 plants. more important trees now ready for general distribution and the number on 200 plants.

Acacia pyenantha, var. melissima. -This tree grows to a height of thirty feet and yields a tanning bark of superior quality. It is of rapid growth, content with almost any soil, but is generally found in poor, sandy ground near the sea coast, and thus is also im portant for binding rolling sand. The Chicago and other small towns. dles of various instruments and articles is at the Arlington.

young trees. Albiggia sophantha, one of the most rapid-growing trees for copses and first temporary shelter in exposed localities, but never attaining to the size of a real tree. For the most desolate places, especially in desert tracts, it is of great importance to create quickly shade, shelter and copious vegetation. Cattle browse on the leaves. The dry root contains about en per cent. of saponin, valuable in silk and wool factories. This tree should be planted on lantana lands, where, on account of its rapid growing quality, it would be valuable by occupying the land to the exclusion of the lantana and also be of use as fodder

for cattle; 750 plants. Mexican Ash-A beautiful tree with opious foliage, the seeds of which were gathered from a tree growing in the by him from Mexico and planted about twenty years since; 260 plants.

Grevillea Robusta (silk oak) beautiful lawn tree, indigenous to the rapid growth, and resisting drought in a remarkable degree; hence one of the most eligible trees for desert culture. particularly for staves of casks and wagon work; 2000 plants.

California Pepper Tree-A handsome shade tree which bears berries that used in place of pots and are much have a flavor closely resembling the pepper of commerce: 350 plants.

Avocado Pear (Persea gratissima) scription; it grows well and bears abundantly in any part of these Islands of the seeds should be thrown away; people themselves or turned over to the Bureau of Agriculture, which will to Sans Souci. see that they are carefully propagated and distributed to those persons who will care for them; 250 plants.

Samang,-The well known Monkey Poinciana Regia.-An ornamental

sents a magnificent spectacle with its immense clusters of scarlet red flowers; roo plants. Yellow Poinciana.-Similar to the

Poinciana Regia but with yellow blossoms; 225 plants. Eucalyptus Globulus .- This tree is

equal in strength to the best English oak, American white oak and American ash. Eucalyptus leaves generate ozone largely for purification of the atmosphere. The volatile oil is very antiseptic:

Algaroba (Prosopis Dulcis).-This well known tree, called by the natives the Keawe tree, has proved to be one of the most beneficial of any of the trees that have been introduced into ties of shade trees and all sorts of im these Islands. It grows in the most dry and barren situations, affording a grateful shade to stock and in the summer months a plentiful supply of nutritious fodder: 200 plants.

Water Lemon (Passiflora Edulis).

Golden Showers (Cassia Fistula). variety, grown from imported seed. If The long pods of this ornamental tree anyone doubts whether tobacco can be contain an aperient pulp of pleasant successfully raised here, a visit to the taste, of medicinal value, also used in function, where the names of the guests The Waikupu Sugar Company's Office

> China Orange.-This tree grows citrus family; 300 plants.

HE ARRIVES IN TOWN ON THE MARIPOSA.

The Famous Novelist is Traveling for His Health and Will Stay Just a Week.

Among the passengers who came off the Mariposa to day was one who drew instant notice from the crowd on the dock. He was extraordinarily tall, thin and sallow, with a look of distress upon possession, was fined \$50 and costs. his face which was accented by a droop ing moustache and a sickly goatee. He wore a military cape over a short, velvet coat and dark trousers, and his traveling hat. A few people knew him by sight, as he had been here before. The stranger was the famous English novelist, Robert Louis Stevenson.

Mr. Stevenson did not care to be nterviewed; "so many American reporters have misrepresented me," he said, so it was difficult to get at his views of things. He was heard to remark, as he left the ship, that matters trouble was likely to break out at any time. Our reporter also learned that This tree is too well know to need de- for his health and should return to Samoa by the Alameda. Accompanied by his friend Mr. Balfour, a relative of the British statesman of that name, and had passed the hands of the Customs officers. It is understood that he went

The passengers on the Mariposa say that Mr. Stevenson did not show himself very often on the voyage up, because of ill health; but last night he took part in a little cabin entertainment, reading the chapter in his "Footnotes" about the great Apian hurricane. Several years ago the famous Engishman was here. He became very friendly with Kalakaua and his sister, the present claimant; and photographs exist which show him sitting at a table peside Mrs. Dominis.

The servant in the party was never modern capital. He is in a chronic

state of amazement. Mr. Balfour will continue on the Mariposa, en route to England.

LAST EVENING'S BALL.

The Local Attendance Was Small But the Occasion Was Pleasant.

Seven officers of the Boston attended the "send off" at the Hawaiian Hotel ladies. Of married couples, exclusive been through the steamer the quaranof naval guests, there were sixteen, and tine was taken off and passengers and -This fruit is now sold in our mar- of gentlemen unmarried or without visitors came and went freely. But a small percentage of those who comparatively light one. were invited was present at all. The contrast between the attendance at this Advertiser, and the attendance at the and scales than other members of the to show that the American colony here officer of the Waikapu Sugar Company The seeds of this splendid lime were ground and not at a Royalist headquarters.

As to the social features of last night's ball, they were pleasant so far as they The company was agreeable went. and the hotel was well festooned by elevation, but responds gratefully to bunting and palms. Music was supdetails of management were properly and gracefully carried out by Messers. Gunn, Tenney and Carney and Mrs. and gentlemen did not have a chance to preside over a larger and more popular affair.

THE SUPREME COURT.

Argued This Afternoon.

the demurer in the case of T. W. Rawlins vs. Honolulu Soap Works was

This afternoon, at 1:30, the now celebrated Katzenjammer libel suit came up for argument, F. M. Hatch appearing for the prosecution and A. S. Hartwell for the defendant. If the argument in the case does not consume too much time this afternoon, it is to be followed by the case of Bishop & degree Co. vs. C. E. Williams et al on exceptions taken at the August term of the Circuit Court.

POLICE COURT MATTERS. Bowen Is Brought Into Court and Re-

manded. In the District Court this morning an individual who goes by the name of J. P. Bowen, issued yesterday, was on to leave by the Mariposa Jack was fined \$10 and costs for using fourth degree, and not for contempt. vulgar language last Sunday afternoon. The assault and battery charge

against D. Paoa was dismissed, as was

rial for to-morrow.

Mori, who is suspected of being a the fa fiend, was charged under the THE CUMMINS STEAMS IN IN vagrancy act with having no visible or lawful means of support and requested o give an account of himself. After hearing the testimony of several witwhich the defendant had been concerned, the Court found him guilty and sentenced him to thirty days on the reef.

J. P. Bowen was brought up on a bench warrant issued yesterday and remanded till to-morrow.

schooner from Tonga. Mr. Dryden saw both the Samoan 'kings" while on the islands, and his baseball description of Malietoa, who met him with a club in hand and with an aluminum crown tipped over one eye, was a good thing in one of the Sunday Examiners that came in or the last mail from the Coast.

To morrow Mr. Dryden will continue his voyage to San Francisco.

MEASLES ON THE MARIPOSA Three Children and a Woman Down With the Disease.

About 9:30 A. M. the steamship Mariposa was sighted twenty-five miles off Diamond head, and two hours later steamed into port and tied at the on board a steamer before he boarded Oceanic dock. Quite a large crowd the Mariposa, and this is his first ex- gathered on the wharf, and as soon as perience with the madding crowds of the gang plank was put up, a number of people tried to go aboard, but were met at the foot of the plank and forbidden to go further. The cause of this was that there were four cases of measles aboard and the precaution was taken as a means to prevent the suread of the disease in the city. The patients are three children and a woman, it was said by a passenger who came from the Colonies. The cases are very mild.

No one was allowed to go aboard last evening, as did eighteen young the vessel or to come ashore for some time, but after the Port Physician had

INCENDIARISM AT WAIKAPU. Set on Fire

Sheriff Chillingworth reports to Mar-Wiltse ball, where the roll filled two shal Hitchcock that between 12 and 1 columns, is worthy of remark. It goes o'clock on the morning of the 19th the prefers to attend American balls which at Waikapu was damaged by fire. The are held on neutral or Annexationist matter was reported to Sheriff Chillingworth at o o'clock the following morning, and he went to Waikapu and investigated. In the judgment of the Sheriff the place was set on fire from the outside at the back, as the principal burnt place is at the back and on plied by the Quintette club. All the the outer side. The book-keeper and sub-manager of the plantation was out on the commons at Maalaea bay at the time, and had not returned when Tenny and the Misses Glade, and it the Sheriff wrote. In the meantime was a matter of regret that these ladies the latter is making a searching inquiry into the affair.

Grumbling Sailors.

There was a rumor in town of a mutiny on the Detroit, but when a The Katzenjammer Case is Being STAR reporter came to look into it he found nothing more than the usual In the Supreme Court this morning sailors' kick. It is possible that the the appeal from the order sustaining crew will be discharged altogether and a new one shipped.

only other passenger for the volcano.

Popularity of the Banana.

A curious instance of the cultivation of taste is found in the progress of the banana trade. A few years ago the fruit had little sale. It was hardly ever found at select tables and was regarded nor distributed by the sale of t haps for half-naked blacks, but unworthy the palate of civilized races. Now the banana is one of the most popular fruits of the day, is found everywhere and is voted a delicious morsel.

I have also got a new stock of COLLARS and CUFFS, and above all do not forget that I am making SHIRTS TO ORDER in all styles, and that I am the sole agent for the Dr. G. Jacger Sanitary Underwear. Your physician recommends it for the health. haps for half-naked blacks, but un popular fruits of the day, is found everywhere and is voted a delicious orsel.

In the hot States of America it regarded as a palliative, if not an ab plute preventive of fevers, but in this country its only claim to favor is that it gives a pleasant and cheap addition to our own orchard dainties. It is calculated that in the United States last year the quantity of bananas consumed reached the enormous total of 1,285, 000,000. The British taste for them not yet so pronounced, but it is rapidly growing, and one firm in Covent Gar den often distributes 10,000 bunches per week. The trade may be regarded as in its infancy as yet, but it gives promise of vigorous increase and provethat the best of everything in the world gradually gravitates toward London. London Telegraph.
